

Dear Parents / Students,

The ICSE board syllabus, at all levels, is more structured and the emphasis on English language is higher compared to other boards.

At this time of less exposure and lockdown, one tends to speak in the language spoken at home. We need to take some steps to ensure that they don't forget to speak/learn English.

Some suggestions:

1. Converse in English: Encourage your wards to speak in English at home.
2. Read aloud : Encourage them to read aloud in English. For this they may use any story book/novel/text book/old news papers etc. This should be done for a minimum of 15 minutes. Can also be a part of the family activity.
3. Write a page : Children should write at least a page every day on any topic of their choice. They can write about their thoughts on different things/activities/books/TV programs/Movies /wishful thinking etc. This can also be combined with read aloud activity.
